🇺🇸 U.S. Green Card Holder

EDUCATION

Foster School of Business & College of Engineering, University of Washington

September 2024 – March 2026

M.Sc., Computer Science and Business (GPA: 3.92 / 4.0)

Bellevue, WA

- Relevant Coursework: Product/Program Management, Hardware/Software Prototyping, Web App Development, Entrepreneurial Strategy

Barnard College, Columbia University

August 2020 – May 2024

B.A. in Economics and Anthropology (GPA: 3.96 / 4.0)

New York, NY

WORK EXPERIENCE

Product Growth Manager Intern | AI Consumer Insights Platform

December 2025 – February 2026

atypica.AI

Remote

- Diagnosed activation drop-off at the prompt-entry stage by designing granular event tracking (keystroke, click, dwell-time) with engineering and segmenting new users into behavioral cohorts via Mixpanel on a platform with **1,000+ daily new users**, identifying prompt confusion as the primary friction point in the activation funnel
- Redesigned onboarding experience with targeted use cases, a simplified prompt-entry flow, and an Intercom product tour, driving activation rate from **30% to 39% (+30% relative lift)**, measured via pre/post cohort comparison
- Drove organic growth by leading a creator outreach campaign across 200+ YouTubers, developing product-aligned campaign briefs and achieving a **10–15% response rate**, converting into **7 brand partnerships**

Product Manager Intern | Workforce SaaS

June 2025 – August 2025

Zebra Technologies

Chicago, IL

- Identified a 0→1 opportunity to modernize workforce authentication for **2.5M+ frontline workers** by introducing NFC-based clock-in experiences, translating customer pain points into product requirements and MVP workflows
- Evaluated technical feasibility across existing hardware infrastructure, mapping end-to-end user journeys, edge cases, and fallback scenarios to de-risk implementation before engineering investment
- Collaborated with **15+ cross-functional stakeholders** and presented to **20+ leaders** across business units, securing Product Director buy-in and **recommendation for full development** within Zebra's Workcloud platform

Product Manager Intern | Generative AI Companion App

June 2024 – September 2024

INF Tech (VC-backed by Alibaba Cloud)

Remote

- Conducted user interviews and analyzed survey responses from **500+ users**, identifying emotional companionship and roleplay as key drivers of long-term engagement and informing user persona development
- Analyzed behavioral differences between retained and churned users using D7 retention cohorts, finding that churned users engaged in significantly shorter conversations despite similar character interaction rates, isolating **conversation depth** as the primary driver of churn
- Designed and launched an Inspiration Card system to address conversation drop-offs by surfacing contextual prompts during inactive moments, reaching **25% feature adoption** and increasing D7 retention from **20% to 25%**

ENTREPRENEURSHIP & PROJECT

Product Manager | AI-Powered Community Solar Platform

September 2025 – March 2026

Microsoft Sponsored Project

Bellevue, WA

- Defined product requirements and decision-support workflows for a Microsoft-sponsored platform helping community leaders evaluate solar project ROI, incentives, and contract risks across community solar programs
- Built an LLM-powered contract analysis tool that extracts financial obligations, termination clauses, and risk factors from complex agreements, reducing review time from hours to minutes for non-expert users

Co-founder & Business Lead | Computer Vision-based Robotic System

November 2024 – July 2025

BagSight

Bellevue, WA

- Conducted **400+ customer discovery interviews** with recycling operators, facility managers, and investors, translating operational pain points into product requirements, pricing assumptions, and pilot deployment plans
- Secured a pilot partnership with Recology and earned **finalist recognition among 174 teams** in the Dempsey Startup Competition

SKILLS

- **Product:** Product Strategy, User Research, Customer Discovery, Experimentation, Wireframing, Roadmapping
- **Data & Technical:** SQL, Python, Mixpanel, Firebase, Cohort Analysis, A/B Testing, Machine Learning
- **Tools:** Figma, Jira, Confluence, Notion, Miro, Claude Code
